RE: ESSENTIAL PARKING FOR FEATURE FILM "2 MOONS"

Dear Property Owner,

Please be advised on **Friday, 6th November, between 8:00am - 2:00pm**, we will be parking up some essential vehicles for a feature film that is taking place at the ABC.

In support of the production, we have arranged to use a section of The Goods Line road for essential vehicle parking, requiring approximately 40 metres of space.

Pedestrian control will be in place while vehicles are entering, exiting and parking in the designated area. These arrangements will be required between **8:00am and 2:00 pm**.

We also work closely with council so all the appropriate permits and formalities will be in place. We aim to consult with neighbouring residents and businesses to manage parking and communicate wherever possible and this letter is part of that consultation process.

If you have any concerns or need more information, please contact me on **0421 333 398** or davewatts555@gmail.com I will be happy to answer questions or hear concerns.

If you require further verification of our credentials, please feel free to call Leah MacMillan at the Screen New South Wales office to confirm bona fides on **0449 506 496** or email her at leah.macmillan@screen.nsw.gov.au.

Thank you for your support. It is not taken for granted and it helps us to continue to tell Australian stories.

Many thanks,

David Watts
